TickCheck LLC - Tick Testing Order Form

TickCheck uses PCR-based DNA testing to determine whether a tick carries the bacteria that cause Lyme disease and over a dozen additional tick-borne diseases (such as Anaplasma, Babesia, Bartonella, Ehrlichia, Tularemia, Borrelia miyamotoi, and Rickettsia). By testing the tick that bit you, you can determine your risk of exposure to these diseases.

Mail This Form, Payment, and Specimen To:

TickCheck Tick Testing

562 Independence Road
East Stroudsburg, PA 18301
ATTN: LABORATORY SPECIMEN

Who Referred You: _____

What Can We Test?

We test Deer ticks, Dog ticks, and Lone star ticks. We can test ticks of any age, alive or dead. After removing the tick, place it in a sealed bag and mail it with this form to our laboratory. We can test multiple ticks removed from the same host at the same time.

Choose One Testing Package:

<input type="checkbox"/>	Lyme Disease Only	Test the tick for <i>Borrelia burgdorferi</i> (Lyme disease) only	\$49.99
<input type="checkbox"/>	Triple Play Testing Package <i>Laboratory Recommended</i>	Test for the three most common disease-causing bacteria found in your tick (including Lyme if it can be transmitted), at a 20% discount from the cost of individual tests.	\$124.99
<input type="checkbox"/>	Comprehensive Diagnostic Panel	Test your tick for Lyme plus up to eight additional diseases which can be carried and transmitted by your tick (see test list at top of page).	\$199.99

Additional Options (Choose Any):

<input type="checkbox"/>	Priority Processing	We will prioritize this test on receipt of the specimen	\$29.99
<input type="checkbox"/>	Engorgement Measuring	we will determine the tick's level of engorgement and/or time feeding	\$9.99
<input type="checkbox"/>	Mailed Lab Report	Please mail me a signed copy of the lab report (an emailed report is included)	\$4.99
